

Checklist of E/OHS Activities for Bloodborne Pathogens

Program Contact Person: Sheryl Jacobson

Is the Bloodborne Pathogens Written Plan in place? **Yes** No

Has the Plan been reviewed this school year? **Yes** No

Training Conducted on? All-staff on Aug. 24, 2017

List job categories that may be at risk to exposure: Due of the size of the school “all staff” are considered “at risk”. Custodial support is available during the morning sessions of school.

What is this school’s policy regarding Hepatitis B vaccinations for employees considered at risk versus employees considered not at risk in the Exposure Control Plan? All staff are offered HBV vaccine at no cost. The public health nurse Cindy Skulstad provides vaccination services.

Is training provided at this school on methods and techniques to reduce exposure incidents? Training is provided annually during staff development sessions.

New Employees: within days 10 of hiring

Have the employees identified as first aid responders been given at a minimum Red Cross First Aid Training? **Yes** No N/A

Are Exposure Control Kits available to staff? **Yes** No N/A

Location(s): Kits are located in each desk. The janitor’s closet also contains clean-up materials but is often locked.

Status of Declination forms: The forms remain on file in each employee personnel file. They are also stored in the Country side Public Health office.

How is blood or bodily-fluid-containing materials handled at this facility?

Policy regarding cleanup: When custodial help is available they typically will clean fluid spills. More often staff are required to clean affected spill areas.

Location of biohazard bags at school: Nurses office and library office.

Approved disposal location for bio-hazardous waste? Countryside Public Health.
